

Signup (Student)

BASIC COURSE:

On the Login page, the student clicks SignUp Button. On the SignUp Page, the student enters a psu email along with their first name, last name, password and answers to two security question. After that the student clicks on the Submit button and is redirected to the Login page after creating a student account in database.

ALTERNATE COURSES:

The student enters an email with an extension other than .psu:
The system will prompt a message indicating the email entered is invalid.

The student clicks on Signup button without entering first or last name:
The system will prompt a message and notify that those fields are required to be filled.

The student clicks on Signup button without password:
The system will prompt a message and notify that password field is required to be filled.

The student leaves answers to security questions empty:
The system will prompt a message and notify that answer fields are required to be filled.
