

Use Case #3

Generate Schedule (Admin)

BASIC COURSE:

On the Dashboard page, the admin clicks on *MANAGE SCHEDULE* button. Mange Schedule page appears. The admin clicks on the *MODIFY SCHEDULER* button and will get redirected to Modify Scheduler page. Where the admin will select a sport from the drop down along with a date and time, then the admin clicks on the *CREATE* button. This will generate a schedule for the given sport on the given date and time.

ALTERNATE COURSES:

The admin does not select an option from the dropdown menu: The system will prompt a message indicating that the sport section is required to be selected.

The admin selected a date with all time already selected: The system will prompt a message indicating all spots for the given date and sports are taken.
